

WELCOME PACKET · SEPTEMBER 2026

Client Launch Kit

Jordan Hale · Hale Capital Lending
Reverse Mortgage · Go-live 15 September 2026

Welcome to Waiz, Jordan

Your reverse-mortgage acquisition engine is built, checked, and ready to go live. This kit is the leave-behind from your launch call. It is not homework. It is the map — what is live, how to run Week 1, where every file lives, and who to reach when something needs attention.

Most agencies hand you a login and wish you luck. We are pulling up the hood. When you understand the system, you show up better on your calls, you use the tools correctly, and you get more out of every dollar you invest with us.

The PDF is the conversation. The Drive folder is the vault. Anything that changes — ads, swipe files, recordings — lives in Drive so this document never goes stale.

What's inside

	Section	The question it answers
01	What's live	Where are my pages, my CRM, my calendar, my ads?
02	How the engine works	What happens to a person between the first ad and a held appointment?
03	Week 1 operator checklist	What do I do when a lead hits?
04	Resource index	Where are the playbooks behind the rules?
05	Creative and swipe files	What can I see, use, and remix?
06	First 30 days	What should I expect — and what should I ignore?
07	Who to ping	Slack now, or bring it to the weekly call?

Read it once end to end. Then keep it open on launch day. Sections 01 and 03 are the ones you will come back to most.

01 What's live

These are your properties. We click every one of them on the launch call. If a link does not open or a login fails, we fix it before we treat the account as live. Access first. Volume second.

Property	Where to find it
Funnel / landing page	https://example.com/hale-rm
CRM	https://example.com/crm/hale
Booking calendar	https://example.com/book/hale
Meta ads account	https://example.com/ads/hale
Slack channel	#hale-capital
Training (Skool)	https://example.com/skool/hale
Launch Kit folder (Drive)	https://drive.google.com/drive/folders/sample-hale-launch-kit

Your account at a glance

Account	Detail
Client	Jordan Hale · Hale Capital Lending
Product line	Reverse mortgage
Market	Florida
Go-live	Monday, 15 September 2026
Who works new leads	Jordan + VA
Client Success Manager	Laura

Bookmark the CRM and the calendar on your phone today. Speed-to-lead starts with not hunting for the login.

02 How the engine works

We are not a lead vendor. We built an acquisition engine around you. You do not need to know how we build it — you do need to know what happens to a homeowner from the first ad to a held appointment, and where you come in.

Stage	What the prospect experiences	What you do
Awareness	They see your ads. If they watch or click without submitting, they are followed until they are ready.	Nothing yet. Stay off the scoreboard.
Funnel	They land on your page and opt in. Qualification happens here, before your calendar.	Do not rewrite the page mid-test.
CRM + first contact	The lead lands in your CRM and is acknowledged within minutes. Speed is the offer.	Call. Text. Log the disposition.
Booking	A qualified conversation ends on the calendar — not in a voicemail loop.	Never hang up without the next step.
Pre-appointment	Reminders and nurture protect the show.	Confirm. Do not go dark after the book.
Long-term pipeline	People who are not ready stay in a system that keeps you in front of them.	Work today's leads. The drip holds the rest.

Repetition builds familiarity, and familiarity builds trust. That is why the ads keep running after the click.

What we do differently

What everyone else does	What Waiz does
Runs stock-image ads	Builds a full acquisition engine around your brand
Drops leads in your inbox	Controls every stage of the lead journey
Disappears	Qualifies, calls, books, and nurtures
Blames the market	Stays accountable to your outcomes

03 Week 1 operator checklist

Reverse mortgage. You and your VA work new leads. The bot and the drip support you — they do not replace the phone.

1. When a lead hits, work it. Do not batch until tonight.
2. Call first. Text if you miss. Leave a short voicemail — then move on.
3. Never end a live conversation without the next step on the calendar (BAMFAM).
4. Update the disposition before you touch the next name.
5. If they text back, call. Do not write a novel in the thread.
6. Stay in Slack. If something looks broken, say so the same day.

If / then

If	Then
A new lead hits and you are free	Call now. Do not wait for a block.
No answer	Voicemail + text. Disposition. Next name.
They engage but will not book	Hold a time inside 72 hours or set a real callback.
They book	Confirm on the phone. Reminders stay on.
Something in the CRM looks wrong	Slack — do not invent a workaround.

Daily rhythm

Block	What happens
Morning	Clear overnight leads. Confirm today's appointments.
Midday	Work new inbound as it lands. Second attempt on the morning misses.
End of day	Every lead has a disposition. Tomorrow's holds are confirmed.

Speed standard: as agreed on your kickoff. We never invent a number in this kit. If you are unsure what you committed to, ask on the call.

04 Resource index

The playbooks behind the rules in Section 03. Use them when you are in the work, not on the launch call. If one is not in your Drive yet, your CSM sends it.

When you need	Open
How the Waiz stack nurtures after the click	Lead Nurture Playbook — Waiz Meta Stack
How we think about quality leads	RM High-Quality Lead Acquisition
How the ads are meant to feel	Reverse Mortgage Ads Playbook
Booking the next step on the phone	BAMFAM Playbook
Your live ads and approved examples	Launch Kit folder → 03-Swipe-and-Ads

05 Creative and swipe files

The files that change live in Drive, not in this PDF.

Folder	What's in it
Launch Kit (root)	https://drive.google.com/drive/folders/sample-hale-launch-kit
01-Launch-PDF	This document
02-Links	Shortcuts to every page in Section 01
03-Swipe-and-Ads	Your live ads plus approved examples you can reference or remix
04-Recordings	Launch-call recording, posted after the call

- Use the swipe pack to see what is running and what we have already approved.
- Send ad ideas to Slack — we will tell you if they are usable. Do not drop competitor ads into the folder.
- We own the live campaigns. Ask for changes; do not edit ads or budgets yourself.

06 First 30 days

Weeks 1–4 are a test. We are collecting data across ads, audiences, and angles. No single combination has earned the whole budget yet. That is the work — not a delay.

What you will feel	What it means
Lead volume is uneven	Normal. Tests do not arrive in a straight line.
Cost per lead looks high	Expected while we learn. Not the scoreboard.
A deal closes in Week 2	Celebrate. Still do not call the month a verdict.
A quiet day	Not a failure. Stay on the phone for what did come in.
The urge to rebuild everything	Talk to us first. Mid-test rewrites reset the clock.

Week by week

Week	Focus
Week 1	Ads live. Access confirmed. First leads worked inside the speed standard.
Week 2	Data accumulates. First patterns in who responds and when.
Week 3	Early winners emerge. We start leaning budget toward them.
Week 4	Month 1 review on the weekly call. What we learned, what changes next.

Your job this month

1. Work every lead. Keep dispositions clean.
2. Show up to the weekly check-in with what you heard on the phone.
3. Stay in Slack. Celebrate the first lead, the first book, the first show.
4. Do not judge the system by ROI in Month 1.

Closings can happen. They are not how we score Week 1. We score whether the engine is live and whether you are on the leads.

07 Who to ping

Two channels. Slack for anything that is broken or time-sensitive. The weekly check-in for everything you want to think through together.

Situation	Where	When
Cannot log in / page is down / ads look off	Slack	Same day — do not wait for the call
A lead you cannot find in the CRM	Slack	Same day
How a conversation went / a pattern you are seeing	Weekly check-in	Bring notes
A new ad idea or landing-page tweak	Slack	We will queue it — not same-hour unless broken
You are underwater and need a reset	Slack + CSM	Say it. Do not disappear.

Your team

Role	Who	How
Client Success Manager	Laura	Slack #hale-capital · weekly check-in
Media buying	Waiz team	Via Laura — do not edit campaigns directly
Tech / CRM	Waiz team	Via Slack — describe what you saw, we fix it

Weekly check-ins start the first week the ads are live. Your CSM will send the recurring invite before launch day.

Welcome aboard, Jordan. The engine is live. Your job this month is simple: be on the phone when the leads come in.
